*Stay tuned for further details about location, executive positions available, and registration.

Corn Barbecue - 2021

Thank you to everyone who dropped by our Corn BBQ at the Cole Harbour Farm Museum last Wednesday!

New Member - Acetech Home Inspections Inc.

Let's all give a warm welcome to one of CHABA's newest members, Michael from Acetech Home Inspections Inc.!

Michael started working in the home inspection business two years ago, after working in IT and as a data center specialist before moving to Canada. He was introduced to the scale of the home inspection business while buying his home and drawn to being able to own his own business and work with his hands.

Michael's favourite part of working in the Home Inspection business is how it's dynamic environment keeps him on his toes, and how it provides him with opportunities to learn new things. In his free time, Michael enjoys riding motorcycles and trying new foods and restaurants around Halifax.

In the future, Michael looks forward to being able focus on living a healthy, balanced life, and being able to help people in need around the community!

If you need a home inspection done, check out Michael's [website!](#)

New Member - All Points Travel

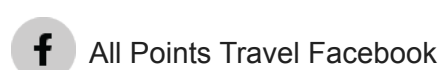

Let's all give a warm welcome to one of CHABA's newest members, Debbie from All Points Travel!

Debbie started working in the travel industry in 2014 after working several different careers in the time prior. While on leave from work with her children, she really wanted to be able to do something that she would enjoy and give her the ability to spend more time at home. She loves helping people plan their vacations and business travel and is looking forward to helping everyone get out of town when travel starts up again.

Debbie's favourite part of working in the travel industry is meeting with companies and constantly learning something new about our world. In her free time, Debbie enjoys grabbing some ice cream, spending time with family and friends, and reading when time permits.

In the future, Debbie looks forward to helping groups of travellers get their bucket list trips checked off, and getting out to see a couple of her "must see" spots that she's dreamed of visiting herself.

Make sure to follow All Points Travel on social media (links are below), and if you have any travel questions, you know who to go to!
